## Household Carbon Filters

## Basic Taste and Odor Filter WCTO-2898

The WCTO-2898 activated carbon block filter provides chlorine, taste and odor reduction capabilities that typically exceed granular activated carbon (GAC) filters. The carbon core is formulated from 100% coconut shell carbon. Carbon block offers a strong uniform, permeable filter medium that prevents channeling, bypassing or fluidizing throughout service life. The carbon block core is wrapped with a protective layer of spun filter matting that removes silt sized particles and extends filter life. An outer netting offers protection from abrasion during shipping and handling. White polypropylene end caps are securely bonded to the carbon block with a food-grade accepted adhesive. Buna end gaskets are formulated for use in drinking water applications designed to fit into most standard 10-inch housings. The WCTO-2898 filter offers the superior performance of carbon block at an economical price that is an attractive alternative to GAC filters.

### ■ Features

- Chlorine, Taste and Odor Reduction
- 99% Chlorine Reduction
- 10 Micron Filtration
- 1200 Gallon Capacity (4.54 m<sup>3</sup>)

### ■ Specifications

- Filter Dimensions..... 2.8-inch O.D. x 9.8-inch L (71.12 mm x 248.92 mm)
- Material Components..... FDA Accepted
- Carbon Source ..... 100% Coconut Shell
- Carbon Type..... Block
- Operating Temperature ..... 33°F - 125°F (0.5°C - 52°C)
- Maximum Operating Pressure..... 125 PSI (8.62 Bar)
- PSID vs Flowrate..... 1.0 PSID @ 1.0 GPM  
0.07 bar drop @ 0.22 m<sup>3</sup>/hr)

Osmonics Household Brand Filters are not to be installed on microbiologically unsafe water supplies. The WCTO-2898 filter is not designed to sanitize water, remove cysts, bacteria, or viruses. Filter performance can be affected by fluctuations in water quality. Contact Osmonics Household Water Group for additional information.
