

Apollo Spot-Free Wash System, Portable Cart Mount

Figure 1: Apollo Spot-Free Wash System, Portable Cart Mount

Description and Use

With GE's Apollo Spot-Free Cart Systems (Figure 1), cleaning vehicles and other exterior surfaces has never been more convenient or economical. These systems are specifically designed to offer the lowest maintenance possible, effortless operation, ease of maneuverability, and eliminate hand drying or re-rinsing. You can choose between electric powered systems for ultra quiet operation or gas engines for extra power. Regardless of the system you choose, these compact, cart mounted systems are the ideal solution for portability and all your washing needs.

To help maintain and extend your system's life and capability, all GE Apollo Spot-Free Wash Systems can be covered by comprehensive service and maintenance coverage and supported by our fully trained field services team.

Standard Equipment

- Fail safe "spot free" water monitor
- Top quality hose reels
- 100-ft (30-m) sleeved high pressure hose
- 100-ft (30-m) industrial feed water hose
- Trigger gun for on/off control
- Flexible spray wand with nozzle protector
- 80-mesh feed water filter
- Power Systems: 2-HP Baldor Motor (electric) or 5.5-HP Honda engine with low oil alert system
- Triplex high pressure pump
- Foam filled, 2800-lb (1270-kg) capacity wheels with brakes
- Powder coated 1.5-inch (3.8-cm) tubular frame
- Thermal overload pump and motor protection
- 100-foot industrial power cord (electric model)
